**Approximately 1 in 5 Americans experience a mental health or addiction disorder each year. Do you know what to do when someone near you has a panic attack or is in crisis?**

**Mental Health First Aid USA** is an 8-hour training to teach participants how to help someone who is developing a mental health problem or experiencing a mental health crisis. The evidence behind the program demonstrates that it helps trainees identify, understand and respond to signs of mental illnesses and substance use disorders.

The course teaches:

- Risk factors and warning signs of mental health concerns
- Information on depression, anxiety, trauma, psychosis, and substance use
- A 5-step action plan to help someone developing a mental health concern or in crisis
- Available evidence-based professional, peer, and self-help resources

The 5-step action plan, ALGEE, includes:  
**A**ssess for risk of suicide or harm  
**L**isten non-judgmentally  
**G**ive reassurance and information  
**E**ncourage appropriate professional help  
**E**ncourage self-help and other support strategies
