LIFE : Keeping You Entertained and Engaged

Who would have dreamed how we find ourselves living today? Four plus months ago we were going about our lives and LIFERS were attending classes at the Heintz Center! Suddenly we are at home all of the time and only going out to pick up groceries and other items using curbside pick up! But thanks to Chrisanne Pieper, Jamie Schroeder and Steve Troutman our LIFE classes continued on Zoom! Chrisanne and Jamie engaged our presenters and Steve taught us how to use the technology. We were on our way! Classes were not only interesting and entertaining but filled a void in our lives. We are so grateful for them keeping us entertained and engaged plus keeping us safe!

LIFE classes will resume on Zoom. Beginning in late August with a presentation by Dr. Eddie Stenehjelm, an infectious disease doctor in Salt Lake City. He will share information on the Corona Virus. Several other classes will begin in September. You will be receiving a catalog in the mail very soon! The new catalog will have a different look but contain some wonderful engaging topics!

Although we **much** prefer to meet in person there are some advantages to using Zoom! We save time driving to Heintz Center, no parking, no gas. Do we have to dress up or even climb out of our jammies? **Because classes can be accessed from anywhere please invite family and friends from across the country to attend.** The catalog is available online.

Presidential Elections, Secrets of the Congdon Mansion, and The Wreck of the Edmund Fitzgerald are just a few of the offerings available in September and October. Membership fee is due now and is certainly a good deal. It pays for itself even if you take only a few classes. Although we are not at RCTC we continue to have expenses thus welcome donations to LIFE so we can continue to bring the quality topics and instructors to you. Enjoy what is left of the summer and I'll 'see' you online!

Learning Is ForEver...Providing adult education, insight, and engagement

Teacher Feature...

Dr. Eddie Stenehjelm is Intermountain Healthcare's Medical Director of Antimicrobial Stewardship, overseeing antimicrobial stewardship programs across 23 hospitals and over 185 outpatient clinics throughout Utah and Idaho. Dr. Stenehjelm trained in Internal Medicine at the University of Colorado and completed his Infectious Diseases Fellowship at Emory University in Atlanta. His research is focused on improving the quality of infectious diseases care delivered to patients with an emphasis on developing, implementing, measuring, and studying methods of improving antimicrobial stewardship practices across the continuum of care.

Dr. Eddie Stenehjelm will present on Thu, Aug. 27
