WISHES FOR A HAPPY "LIFE" HOLIDAY SEASON

This holiday season is fast approaching with hopeful optimism and many decorations. As usual LIFE continues to feed my optimism with a combination of informative, thought – provoking and entertaining classes. The variety of classes has greatly expanded with the ZOOM format thus giving us many choices to offset the social and intellectual restrictions of the COVID virus. While history and international affairs are some of my favorite subjects, for variety I like to mix in classes in nature, architecture, Russian arts and the occasional unexpected topic.

This season's offerings are topped off for me on December 16 with Taylor Hagood's take on Dickens' "A Christmas Carol." With a name like Mrs. Charles Dicken, how could I not sign up for this class? Add to the regular class schedule some special holiday trips and we have reason to celebrate.

Brenda Dicken
