## LIFE: Stimulating, Entertaining, Humorous

Friends ask me, as they often do, what do you like about the LIFE Program? What is it all about? My sarcastic response is "what's not to like?" Why not LIFE? What else fills and stimulates you to learn, with entertainment and humor?

LIFE, the acronym for Learning Is ForEver, offers classes and programs on a wide variety of topics. Some of the recent topics include animals, aviation, science, travel, museums, parks, rivers, kings and queens, as well as local history. A class on the innocence project touched my heart and prompted me to investigate further. All presenters are qualified with validated credentials.

LIFE catalogs are mailed out each quarter. The classes offered always look so interesting, it's hard to decide! There's always something to tweak interest, always something for everyone!

During the pandemic classes were held via Zoom, so participants could attend from the safety of their home and any state. Classes are 'on the road.' Recorded classes are available for home viewing too. In the future some classes will return to the classroom setting. The classroom offers opportunity to meet new people and make new friends. However due to the positive response, Zoom classes will continue to be offered.

July 1 membership dues are collected. Dues remain at \$25 per academic year, which entitles members to reduced priced classes. By the way, should you want to attend more classes than the 'purse' allows, scholarships are available by contacting Chrisanne.

What do I like about LIFE? **EVERYTHING!**
