between the UK and the
European Union
30-The Federal Reserve:
America's Central Bank and its
role in communities

LIFE: As Amazing and Diverse as the MN Weather

The LIFE summer catalog for June, July and August describes 42 classes, and includes a separate "yellow sheet." The course offerings are as amazing (and diverse) as the Minnesota Spring weather outside!

Since its inception, the LIFE enterprise has a dual mandate: to improve the quality of its courses, and to expand the program for its members. LIFE members are now able to buy Zoom recordings of past classes presented between May 2020 and May 2021, for viewing at your convenience. A listing of recorded classes appears on the "yellow sheet" alluded to above.

During the just-completed academic year, LIFE has grown in new member-
ships, course registrations, and attendees per class. The Zoom platform attracts faculty and audience members from across the United States. We plan on continuing the zoom format for LIFE courses in Fall 2021 and Winter 2022.

Our easy access for adult learners receives limited benefaction, and can be augmented by giving a donation to the LIFE program before the end of its fiscal year, June 30, 2021. Thank you for considering.

See You In Class!

Tom Gaffey
LIFE Board Member

Learning Is ForEver...Providing adult education, insight, and engagement

Teacher Feature...

Aaron J. Brown is an instructor at Hibbing Community College. He writes a weekly column for the Iron Range's only daily newspaper, the Mesabi Tribune, and a monthly column for the Minnesota Reformer. He is the founder and author of the Northern Minnesota news and culture blog MinnesotaBrown.com. His first book "Overburden: Modern Life on the Iron Range" (Red Step Press, 2008) won the Northeastern Minnesota Book Award. Brown's next book, "Power in the Wilderness," will be published by the University of Minnesota Press in 2022. He lives in the woods of the western Mesabi Iron Range with his wife and three sons.

Aaron Brown's class is
on June 17th
