- 31-Explorations of Lt. Andrew Talcott 1819-1820 (in-person & zoom)

LIFE: An Enriching Learning Experience

Spring has sprung!! And LIFE moves forward...

As Minnesotans we are familiar with the unpredictable nature of spring: April showers punctuated with snowflakes, hail and an occasional bright, warm sunny day. With the arrival of May we look forward to the fishing opener, gardening, Mother's Day and Twins and Honkers baseball.

After two years the COVID-19 pandemic is on the decline. As public health officials have told us: the pandemic is not over ...it is better. We have emerged from our isolation and have begun to reach out to friends, family, and one another.

During May LIFE members have a great deal more to look forward to enjoy and learn. The bountiful LIFE Spring catalog offers twenty-eight classes, including six that will be in-person offerings at the Heintz Center (some will be hybrid—Zoom and in-person). There are also four trips with spaces remaining.

While we refresh our memories on the location of the Heintz Center classrooms H1100 and H1415, it is also a great time to tell your friends about the special \$10 Spring Membership. This offers a wonderful way to experience a wide variety of classes at the member discount during May and June.

As we move into summer LIFE classes will continue to be a blend of Zoom and in-person offerings. We have gained in our comfort and confidence of the virtual classroom. We have gained in our ability to interact with instructors and each other to enrich the learning experience.

The choice is yours: enjoy and keep on learning!
